

Bot Language Trainer and Developer

Experis is looking for Bot Language Trainers and Developers to teach Bots by speaking with them in their native language. The goal is to help the bots adapt to various linguistic characteristics such as language use, grammar, and accent. This is a short-term project (3months) and 100% remote.

Responsibilities:

- Engage in conversations with bots in your native language to train them on linguistic nuances.
- Ensure the bots accurately adapt to the language's grammar, accent, and usage.
- Make small adjustments to the bot's code as needed.

Requirements:

- Proficiency in your native language (Portuguese, Spanish, Italian, French and German).
- English level B2 or higher (mandatory for all native languages).
- Approximately 1 year of coding experience in one or more of the following languages: Python, C++, Swift, C#, Go, Verlock, Java, JavaScript, TypeScript.
- Ability to make minor code adjustments while working with the bot.

Preferred Skills:

- Strong communication skills.
- Attention to detail.
- Experience with AI or machine learning is a plus.
